Report of Independent Registered Public Accounting Firm

To the Stockholder
SEB Securities, Inc.

We have audited the accompanying statement of financial condition of SEB Securities, Inc. (the "Company") as of December 31, 2015, that is filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of SEB Securities, Inc. as of December 31, 2015 in accordance with accounting principles generally accepted in the United States of America.

(A Wholly Owned Subsidiary of SEB AB)

Notes to Financial Statements

December 31, 2015

1. Nature of operations

SEB Securities, Inc. (the "Company") is a wholly owned subsidiary of Skandinaviska Enskilda Banken AB (publ) ("SEB AB" or the "Parent"). The Company is registered as a broker-dealer in securities under the Securities Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA").

The Company's activities primarily include research, effecting securities transactions in securities listed on major European exchanges for U.S. institutional customers as well as financial advisory services in connection with trans-Atlantic mergers and acquisitions. Under an agreement with a foreign affiliate, the Company processes customers' securities transactions with an affiliate, which clears and settles the transactions on a receipt versus payment/delivery versus payment basis. The Company also executes and clears U.S. securities trades through an unaffiliated clearing broker on a fully disclosed basis.

2. Summary of significant accounting policies

Basis of presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Cash and cash equivalents

The Company considers all short-term investments with an initial maturity of three months or less to be cash equivalents. There were no cash equivalents as of December 31, 2015.

The Company's cash at December 31, 2015 was held at two financial institutions. More than half of the Company's stockholder's equity is held in two bank accounts and therefore is subject to the credit risk at the financial institution that holds the accounts. The Company has not experienced any losses in such accounts and does not believe there to be any significant credit risk with respect to these deposits.

Receivable from and Payable to Broker-Dealers

From time to time the Company will have a receivable from and payable to broker-dealers that will consist primarily of failed-to-deliver/failed-to-receive transactions with an affiliate.

Translation of Foreign Currency

Assets and liabilities denominated in foreign currencies are translated into United States dollar amounts at the year end exchange rates. Transactions denominated in foreign currencies, including purchases and sales of investments, and income and expenses, are translated into United States dollar amounts using the average exchange rates. Adjustments arising from foreign currency transactions are reflected in the statement of operations.

Furniture, Equipment and Leasehold Improvements

The Company shares furniture, equipment and leasehold improvements with SEB NY (see Note 3). It also leases equipment from a third party vendor.

SEB SECURITIES, INC.

(A Wholly Owned Subsidiary of SEB AB)

NOTES TO FINANCIAL STATEMENTS

December 31, 2015

2. Summary of significant accounting policies (continued)

Commission Income

The Company earns commissions from customers' securities transactions. Commission income and related clearing costs are recorded on a trade date basis.

Underwriting Income

Underwriting income includes underwriting fees, which the Company earns for its participation with its affiliates in initial public offerings. Such revenues are recognized in the statement of operations, net of expenses, when the services related to the underlying transaction are completed under the terms of the agreement or contract.

Securities Finance Income

The Company earns securities finance income in accordance with a revenue sharing agreement based on its participation in securities lending transactions as part of a global trading book with several affiliated entities. Each transaction involves borrowing securities from one counterparty and lending to a second counterparty, which may be either an affiliate in the global book or a third party. As a result, revenues cannot be directly assigned to individual members of the global book. Revenues are therefore allocated to the Company and other members in the global book based on relative trader compensation of the member firms.

The firm also engages in conduit, or principal, securities borrowing and lending activities involving U.S. institutional counterparties whereby the Company borrows fully-paid U.S. securities from a U.S.-based institutional lender (in exchange for the provision of collateral to the lender) and, then, on-lends such securities to SEB AB (in exchange for the receipt of collateral from SEB AB, as borrower). The Company receives, as consideration for its conduit lending activities, a credit spread between its borrowing cost and its lending fee.

Capital Markets Income

The Company markets capital market products to U.S. investors. The buy and sell side of each trade is executed together to ensure the Company does not own or maintain an inventory, and revenue is recognized for the gain or loss on trading activity on a trade-date basis.

Interest Income

The Company earns interest income primarily on cash balances which is recognized on an accrual basis.

Short-term Incentive Compensation ("STI")

Short-term incentive compensation is expensed in the period granted. However at the discretion of the Company, a portion may be deferred over three years (see Note 4). As such, the Company's statement of financial condition includes the full effect of the STI awarded and liability for unpaid deferred amounts within 'accounts payable and accrued liabilities.

Other Income

Other income consists of research services provided by the Company to third parties. Research services are provided to various customers. All other income items are billed as services are provided and revenue is recognized as earned.

SEB SECURITIES, INC.
(A Wholly Owned Subsidiary of SEB AB)

NOTES TO FINANCIAL STATEMENTS
December 31, 2015

2. Summary of significant accounting policies (continued)

Long-term Incentive Compensation ("LTI")

Long-term incentive compensation cost is measured at the date of grant based on the current fair value of the award and is recognized as expense on a straight-line basis over the period during which the employee is required to provide service in exchange for the award (the "vesting period") (see Note 4). On older (closed) plans the award was settled through purchases of Parent stock in the open market. As such, the Company accrued a liability over the vesting period, which is included in 'accounts payable and accrued expenses' on the statement of financial condition. At the same time, the Parent agreed to contribute capital to cover all payouts under the plans. Each prior period, the Company records a contribution and receivable from the Parent until payouts are made under the programs. The receivable was included in 'Due from Parent' on the statement of financial condition.

Long-term incentive compensation cost on active plans is measured on the current fair value of the award and is recognized as a probable expense on a straight-line basis over the period during which the employee is required to provide service in exchange for the award (the "vesting period") (see Note 4). These plans are settled in cash through the normal payroll process and as such, the Company accrues a liability over the vesting period, which is included in 'accounts payable and accrued expenses' on the statement of financial condition.

Income Taxes

The Company complies with GAAP which requires an asset and liability approach to financial reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in future taxable or deductible amounts, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred income tax assets to the amount expected to be realized.

The Company is required to determine whether its tax positions are more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax benefit recognized is measured as the largest amount of benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement with the relevant taxing authority. De-recognition of a tax benefit previously recognized results in the Company recording a tax liability that reduces ending retained earnings. Based on its analysis, the Company has determined that it has not incurred any liability for unrecognized tax benefits as of December 31, 2015. The Company's conclusions may be subject to review and adjustment at a later date based on factors including, but not limited to, on-going analyses of and changes to tax laws, regulations and interpretations thereof. The Company recognizes interest and penalties related to unrecognized tax benefits in interest expense and other expenses, respectively. No interest expense or penalties have been recognized as of and for the year ended December 31, 2015.

The Company files an income tax return in the U.S. federal jurisdiction, and may file income tax returns in various U.S. states and foreign jurisdictions.

The Company may be subject to potential examination by U.S. federal, U.S. states or foreign jurisdiction authorities in the areas of income taxes. These potential examinations may include questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions and compliance with U.S. federal, U.S. state and foreign tax laws. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

SEB SECURITIES, INC.
(A Wholly Owned Subsidiary of SEB AB)

NOTES TO FINANCIAL STATEMENTS
December 31, 2015

2. Summary of significant accounting policies (continued)

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Liabilities subordinated to claims of general creditors

In June 2014, the Company entered into a subordinated revolving note agreement for a maximum \$10 million with its Parent which matures in 2020. There were no draws on the subordinated revolving note agreement during 2015.

3. Related party transactions

Effective January 1, 1995, the Company entered into a Legal Accounting by Office agreement (the "Agreement") with the Parent, under which the Company agreed to reimburse the Parent for research, trading and business support costs ("Allocated Costs") provided by the Parent to the Company. The research costs are allocated to the Company predicated on the number of sales staff in New York to the Parent's total sales staff, and trading and settlement expenses are allocated to the Company based on the number of the Company's customer transactions to the number of the Parent's total customer transactions. Additionally, information technology costs are separately allocated based on usage and contractual agreements.

The Company operates under service level agreements with a branch of the parent, Skandinaviska Enskilda Banken New York ("SEB NY"), under which the Company agreed to reimburse the branch for finance, accounting, information technology, operations and other support costs ("Allocated Costs") provided by SEB NY to the Company. SEB NY also sponsors the 401(k) plan in which the Company's employees participate.

The Company shares office space with SEB NY (see Note 6), which includes sharing furniture and certain equipment. There were no amounts due at December 31, 2015 under the lease agreement.

Transactions among the various parties are not presumed to be at arm's length and therefore the amounts involved are not necessarily the same as what might prevail in transactions among non-related parties.

SEB SECURITIES, INC.
(A Wholly Owned Subsidiary of SEB AB)

NOTES TO FINANCIAL STATEMENTS
December 31, 2015

4. Employee Compensation Programs

The Company's remuneration is based on three major components: base pay, variable pay and pension/benefits. Variable pay is all compensation that is not predetermined to any size or amount. Variable pay includes both short-term incentive ("STI") and long-term incentive ("LTI") programs.

Short Term Incentive Program ("STI")

Based on the performance of the Company, Parent, and the individual, the Company may award Short Term Incentives to select staff. These are cash awards in accordance with applicable regulations and expensed at the time the award was granted. A portion of some awards will be deferred and evenly paid out over three years as long as the performance criteria are met. As of December 31, 2015, deferred STI was approximately \$66,000 and approximately \$260,000 of accrued STIs are within the statement of financial condition.

Long Term Incentive Program ("LTI")

Each year the Company may offer one or more long-term equity-based incentive programs which have multi-year financial impact. The Parent manages each plan and may make the payouts under the plans dated prior to 2015. Company employees can be invited to participate in an LTI plan, as long as the employee meets plan criteria and remains employed by the Company. The financial impact is reported within the financials. The programs' key features and 2015 financial implications are as follows:

- **Share Savings Program (SSP)**
 - Offered to all staff
 - Participants may save a maximum of five percent of their gross base salary during a twelve month period. For the saved amount, SEB AB Class A shares are purchased at the current stock exchange rate four times a year. If the shares are retained by the employee for three years and the employee remains with the Company, the employee will receive one Class A share for each retained share.
 - The 2012 plan was the last plan offered.
 - All liabilities have been met under all SSP programs.
- **Share Deferral Program (SDP)**
 - Offered to a small number of selected senior executives.
 - Participants are granted an individual number of Conditional Share Rights (CSR).
 - One Conditional Share Right shall correspond to the fair value of the volume weighted average price for one SEB Class A-share.
 - The programs are based on performance and have a vesting period of three years;
 - Settlement to the employee is in cash through the normal payroll process.

To account for the SDP plans, the estimated total cost is calculated based on the current fair value of the CSR and expensed evenly over the vesting period until fully vested. As of December 31, 2015, the total accrued expense to date is approximately \$55,000 and is included in 'accrued compensation' in the statement of financial condition. The total value of all SDP awards is approximately \$191,000.

SEB SECURITIES, INC.
(A Wholly Owned Subsidiary of SEB AB)

NOTES TO FINANCIAL STATEMENTS
December 31, 2015

5. Income taxes

The tax-effected components of deferred income tax assets consisted of the following at December 31, 2015:

Federal & State net operating loss carryforwards	\$ 328,652
Temporary Differences	<u>307,380</u>
Gross deferred tax assets	636,032
Valuation Allowance	<u>(636,032)</u>
Deferred tax assets	<u>\$ -</u>

The Company files Federal, New York State and New York City income tax returns. The Company's effective Federal tax rate differs from the statutory rate primarily due to the effects of state and local taxes. The Company's gross deferred tax asset of approximately \$636,000 is primarily attributable to net operating losses, as well as differences in the recognition of current period accrued bonuses for financial and tax reporting purposes. A valuation allowance has been recorded against the entire deferred tax asset balance due to uncertainty of realizing the future tax benefit as of December 31, 2015.

SEB SECURITIES, INC.
(A Wholly Owned Subsidiary of SEB AB)

NOTES TO FINANCIAL STATEMENTS
December 31, 2015

6. Commitments and contingencies

Operating Leases

The Company leases its office space under an operating lease with SEB NY which commenced in December, 2013. Subsequent lease attachments have been for one-year extensions.

Indemnifications

In the normal course of business, the Company enters into contracts that contain a variety of representations and warranty which provide general indemnifications. The Company's maximum exposure under these arrangements is unknown as the contracts refer to potential claims that have not yet occurred. However, management expects the risk of loss to be remote.

7. Pension plans

The Company participates in a 401(k) plan and a defined contribution plan sponsored and administered by an affiliate. The 401(k) plan covers all eligible employees of the Company and the defined contribution plan covers all eligible United States employees.

8. Off-balance-sheet risk and concentration of credit risk

The Company acts as an agent for institutional customers and other broker-dealers in the purchase and sale of foreign securities. The Company executes and clears all of these foreign trades through the Parent and affiliates. These trades are settled on a receive versus payment/delivery versus payment basis. The Company's commissions on foreign securities transactions are collected by the Parent and remitted to the Company monthly. In the normal course of business, the Company's activities involve the execution and settlement of various customer securities transactions.

These activities may expose the Company to off-balance-sheet risk in the event a counterparty is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss. The Company monitors the credit standing of all counterparties with which it conducts business.

Pursuant to a clearance agreement, the Company introduces majority of its U.S. dollar trades to a clearing broker on a fully-disclosed basis. All of the customers' cash balances and long and short security positions are carried on the books of the clearing broker. In accordance with the clearance agreement, the Company has agreed to indemnify the clearing broker for losses, if any, which the clearing broker may sustain from carrying securities transactions introduced by the Company. In accordance with industry practice and regulatory requirements, the Company and the clearing broker monitor collateral on the customers' accounts.

SEB SECURITIES, INC.
(A Wholly Owned Subsidiary of SEB AB)

NOTES TO FINANCIAL STATEMENTS
December 31, 2015

In addition, the receivables from the clearing broker are pursuant to this clearance agreement and include a clearing deposit of \$100,000.

The Company maintains its cash in financial institutions, which at times, exceed federally insured limits. The Company has not experienced any losses in such accounts and believes it is not subject to any significant credit risk on cash.

9. Net capital requirement

The Company, as a member of the FINRA, is subject to the Securities and Exchange Commission's Uniform Net Capital Rule 15c3-1 and has elected to compute its net capital requirements in accordance with the Alternative Standard. Under this method, the Company's net capital, as defined, shall not be less than \$250,000. At December 31, 2015, the Company had net capital of approximately \$10,824,000 which exceeded the required minimum net capital by approximately \$10,574,000.

10. Exemption from Rule 15c3-3

The Company is exempt from the Securities and Exchange Commission Rule 15c3-3 pursuant to the exemptive provisions of sub-paragraphs (k)(2)(i) and (k)(2)(ii) and, therefore, is not required to maintain a "Special Reserve Bank Account for the Exclusive Benefit of Customers".
